

## **Animal-Origin Statement for ThruPLEX® Plasma-seq Kit**

The ThruPLEX Plasma-seq Kit contains one raw material of animal origin, bovine gelatin.

Based on certification from the supplier, the gelatin is derived from the hide of cows obtained from USDA (United States Department of Agriculture) facilities, is manufactured in the USA, and the bovine hide is heat treated to inactivate potential pathogens.

The ThruPLEX Plasma-seq Kit does not come into contact with materials of known animal origin during the manufacturing process, storage or transportation of the product. The product is considered non-hazardous; refer to the SDS for further details.

Country of Origin is USA.

A handwritten signature in black ink, appearing to read "Christine Haakenson", is positioned above the printed name.
